If you keep runnin your mouth, I'm gonna cut you a new smile

Bring those teeth to the front so I can knock em out, knock em out

Gimme a break - this is the schoolyard shit you out - grow,

Another weak attack to waste my time - so ante up, and call my bluff,

Or put the cigarette down and hop the train out of town - Cause I'm done trying to shake you, I'm dying to take you down

You know that I'd love to make you cause more than a mess this time

This is a common affair I tried to let go, was even willing to erase this time

So knuckle up, I'm gonna leave you face down - I've had enough,

Yeah that'll teach you not to mess around - yeah, my father tried to tell me

That there are bigger things to worry about - no, there's not a decent

Explanation for this altercation-bottom line, you wear me out - you can't

Shut me up - another victim of the childhood run around - you can't shut us down

Come on and gimmie a break, I'm gonna take you down
