

Farewell "Take It From Me"

I think i might have cracked my wishbone
In the fall
Aspirations all gone wrong
Now my mouth's off the leash
And its armed to release
Got my target set on all of y'all

I can't believe the lines they fed you
All along
Congregations have been conned
Well I've come here to teach,
Infiltrate and impeach,
With this sweet sarcastic sing-a-long

So take it from me
And watch what you say

To me its much more than a business,
A trend
Or just hangin' with my friends
Cause it comes from the heart
Power chord, work of art
You know we'll be here til the bitter end

We'll find our way
With dissension on display
Business stays the same
When no one takes the blame
Here it's in repeat
Your mistakes

So take it from me
If you don't learn you're doomed to repeat
And watch what you say
Take a look at yourself, do you like what you're
becoming?

What do you really have to lose
The choice is yours
And you have no excuse (no excuse)

Team up and set the record straight

We'll show them all
We'll start today

So take it from me
If you don't learn you're doomed to repeat
And watch what you say
Take a look at yourself, do you like what you're
becoming
