My nights are long my days are cold
Without the warmth you provide me when I hold
You in my arms feel so long ago
You were there I think a tear drop just fell down

I really wanna come to see you
I really really wish I could
Maybe in a couple of weeks
Its only a couple of week
But even tho I get to
Its 14 days I gotta get trough
Its too many days babe

And I'm really really missing you
And I miss miss miss
I'm missing you
and I don't know how i'm gonna make it through
But I gotta gotta stay strong for us two
I'm a man, its a job that I gotta do

So I go outside and I fake a smile
But if they only knew just how many miles
Between love so true and nobody can cope the way that
we do
And I'm really really missing you

Baby when your near
All of my visions clear
Like a magic show I blink and then you disappear
And I frequently invision how it would be to have you
alone with me
Give me a moment so I can, breathe..

Ok
I really wanna come to see you
Baby I wish I could
Maybe in a couple of weeks
Its only a couple of week
But even tho I get to
Its 14 long days I don't have you
Its too many days babe

And I'm really really missing you
And I miss miss miss
I'm really really missing you
and I don't know how i'm gonna make it through
But I gotta gotta stay strong for us two
I'm a man, its a job that I gotta do

So I go outside and I fake a smile
But if they only knew just how many miles
Between love so true and nobody can cope the way that
we do
And I'm really really missing you

So maybe one day babe not too far away
We can turn all our dreams into memories
Baby we'll have that homes
Spiral stairs all that we share so many nights over the
phone

I really wanna come to see you
Baby you know I do
Maybe in a couple of weeks
Its only a couple of week
But even tho I get to
Its still too long to be away from you
Its too many days babe

And I'm really really missing you
And I miss miss miss
I miss you
and I don't know how i'm gonna make it through
But I gotta gotta hold strong for us two
I'm a man, its a job that I gotta do

So I go outside and I fake a smile
But if they only knew just how many miles
Between love so true and nobody can cope the way that
we do
And I'm really really missing you
