-in your life there's just one person you can't live

who told me, baby i believe you're Gonna make it,
who who who who who ohhh...

and who held my hand when i was in need, i was
stronger,

who kept me going when i couldn't go longer
who who who who whoo...

and you need to know

it was you

it was you

Girl it was you

it was you

my dreams come true, my loves for you,

girl it was you

(say it) yeah

who's on my mind every second that i wake up.

who looks so fine, she dont even need her make up

who who who who (tell me)yeah yeah

who help you out when you were in cause of faded

and you got out and was the first one that was waiting

who.. who... who... yeah

and you need to know

cause it was you

and you need to know

and you need to know

-now listen, you only get one life, and sometimes, you
only get one shot to live with everything that you have,
so if you have more than anything, look 'em dead in
the eyes you don't even blink and then say this-

say i love you (i love you)
i want you (i wan you)
i need you (i need you)
GIRL i need you (i need you)
and i love.....(love love love)
i love.... you soo.. (you so)
and you need to know

it was you
it was you
girls it was you
it was you
my dreams come true, my love for you, cause it was
you (it was you, it was you, it was you)

it was you
it was you
girls it was you
it was you
my dreams come true, my love for you,
cause it was you
and you need to know

it was you
it was you
girls it was you
it was you
my dreams come true, my loves for you
girl it was you
