Invading my thoughts
I thought you were better
Just keep your pace,
Don't run the race
Losing can't be done
It's not what I want

Dreaming up fake memories
Like they were never really happening to me
(Dreaming up fake memories
Like they never happening to me)
Don't give this hope away
Pour them on the streets of heaven
(Don't give this hope away
Pour them on the streets of heaven)

Yow! Disguising your voice
So you can't be heard
You should be ashamed
In all these memories
I can't believe my eyes
You've forgotten all the lies

Dreaming up fake memories
Like they never happened to me
We can't give this hope away
Pouring our souls on the streets of heaven
Dreaming up fake memories
Like they were never really happening to me
(Dreaming up fake memories
Like they never happening to me)
Don't give this hope away
Pour them on the streets of heaven
(Don't give this hope away
Pour them on the streets of heaven)

Passing out on your floor
Omg just take me home
You were the one that wasn't accepted
I'll take you down x2
