[Intro]

This hits

Too close to home for me

Your pillow's sinking in

I wanna dive right in and pull you out

From wherever you're going

Rip out your angel wings your still floating

And I never thought

This story would start

6 feet after mars

Because it's getting colder and your getting colder I

said

"doctor doctor is there something you can do?"

"does 100/20 mean anything to you?"

Under the blanket there's only one secret to find

Where your hand is grasping mine...

[1st verse]

If you could just wake up tonight

And sink your eyes in mine

I'll pretend one more time

That everything is fine

From heaven life to dreams

This photograph will always

Remind you of me!

I said I'd wait a lifetime for you,

Now you'll be waiting for me!

[Chorus]

As seasons change

New romances come and go

Some day I will finally let this go back

Further and further

We'll never fall apart

As long as forever stays

Just stay away and pull the safety cord

Say no more

[2nd verse]

Wrap some sugar and spice all over the end of the

knife

So I can show you what it's like to be  
Sweet on the inside

How many times can I hit stop and rewind  
And play my favorite song before I die?

I said I'd wait a lifetime for you,  
Now you'll be waiting for me!

[Chorus]  
As seasons change  
New romances come and go  
Some day I will finally let this go back  
Further and further  
We'll never fall apart  
As long as forever stays

Will this pillow ever stop maybe 6 feet after I get caught  
you'll get dropped  
Keep my calluses gripped around this rose, because I  
chose I'd rather bleed the thorns than drop it where it  
grows

Just stay away and pull the safety cord  
Say no more

Heaven is sky blue  
One thing left to do  
Just be here with you  
I'll drown in my tears if I have to!

I'll stop at nothing  
To keep from breathing  
To be with you where the sun will always shine  
Just so that I  
Can share the same white cloud with you  
Tonight
