And when midnight comes around.

You touch me baby, show me baby
You touch me baby, show me baby
You touch me baby, show me baby*

Because I heard you said
We were going nowhere,
That you were cutting me loose,
Were gonna cut off the juice,
Because I know you're just afraid
I'll make you open your heart,
It don't mean a thing,
You can call it experience,
'Cause when midnight comes
I'm gonna show you who I am,
I'll knock the stars from your eyes,
I'm gonna make you realize
