"Your Love"

*Never get enough of your love
Never get enough of your love
Never get enough of your love
Never get enough of your love

So here we are again
On the verge of love
Let's make it good this time... cos I need you
Don't leave me here alone
Like you did before
I don't think I could stand it... (no more)

*Repeat

You're like a drug for me
I just keep needin' more
I need you everyday, yes I need it
In order to survive
I gotta get your love
I just gotta get all your love yeah

*Repeat
