[Intro] Hear me, Ahhh...

I'm dying, Baby you should give it to me  
I'm dying, Baby I'm addicted to you  
(Don't ask me question) Just do it and just do it for me  
(Your hot temptation) It's burning and it's burning my mind

I'm just a Lovesick (Baby you're the one for me)  
I'm just a Lovesick (love the way you look at me)  
I'm just a Lovesick (This love is for you and me)  
I'm just a Lovesick

I'm walking but my feet do not touch the ground  
I'm smiling but no one sees what's behind my face  
(No explanation) come closer and then set me free  
(This isolation) It's burning and it's breaking my mind

I'm just a Lovesick (Baby you're the one for me)  
I'm just a Lovesick ( love the way you look at me)  
I'm just a Lovesick (This love is for you and me)  
I'm just a Lovesick

I'm gonna give you my love songs baby  
This is all I can give you now  
Take my heart and promise you wont break it  
Don't you break it now...
