[VERSE 1]

When I get stupid to the point that I'm mentally mad  
My rhymes start to flow, so I simply must brag  
About my style that makes you vibrant, I keep drivin  
Until the song turns me to a hip-hop giant  
Me and Marley Marl, we're goin one on one  
For any sucker rapper that chooses to come  
And for me Craig G a/k/a The Kingpin  
I drop science, can't you tell how I'm singing?  
They hate how I tie my mic cord to a whip  
Suckers just have to flip cause I'm so hip  
Craig G and Marley Marl, we form the ultimate alliance  
No sucker can deal when I'm droppin science

[VERSE 2]

Rappers: Ask yourself the same question  
Why am I best in this profession?  
Is it because you're scared to step to me, yo  
Or the things Marley does in the studio?  
I drop science as if I was Butterfingers  
And I know there's not another singer  
In this lifetime to kick the right rhyme  
Cause there's not another rhyme quite like mine  
And when it comes to havin showmanship  
I really don't care who you go and get  
Cause rappers hate me, I'm so defiant  
And I can get stupid just by droppin science

[VERSE 3]

Livin larger than life, and what this means is  
We'll be the dopest duo comin outta Queensbridge  
Now crews hate us cause we're extraordinaire  
For you to beat us? Hm, I think that's sort of rare  
These rhymes are dope, that's how I transmit  
And sized perfectly, so that they can fit  
You're steppin to us? You need traction  
Or you'll be another sucker missin in action  
You hate to hear it? You'll learn to love it  
My smokin rhymes, you always think of it  
I eat MC's up like a pack of hungry lions  
So step out my way, I'm droppin science

[VERSE 4]

The Vernon Posse along with me Craig G  
Is gonna rock it till the crowd begs me  
To kick the next verse, your context's worse  
Like all the others, that's why I get respect first  
And believe me, I'm never on on others  
Cause as a member of Cold Chillin'/Warner Brothers  
I do swear to uphold this  
Title of rap to be the boldest  
Among so many MC's  
Yo Marley, yo we outta here?  
(Yo money, let's breeze)  
Alright
