Expressions on their faces-  
Just reactions to the situation.  
Resist the machine  
As long as time allows you to breathe

Just like the Lion and the Lamb-  
Yea, but only in real life  
You won't see hunter and prey polluting the same  
space

Ooo afraid to go  
Ooo but I can't speak for myself

Just like the blind leading the blind-  
Yea, but only in real life  
You can't see the lives that we lead  
When you've lost your will to be

The machine sucks you in  
And spits you out  
Ooo but I can't speak for myself

Force fed my own blood,  
I'll drink to bad taste

A toast to bad taste
