

## Farless "I Gave In"

Visit "[I Gave In](#)" on MotoLyrics.com

I was born on a one track road to the grave  
From the start I had to work hard  
To stay safe, stay sane

Nothing's valuable to you  
Nothing's meaningful to you

I wish that I knew before I gave in too  
I gave in to that same, safe new feeling

Isn't the sunrise a miracle in disguise?  
An affirmation of love for our eyes  
I can't be patient  
I might be here a while  
Living in circles  
I'm talking in circles like...

What is valuable to you?  
What is meaningful to you?

I gave in to that same, safe near feeling yeah...  
And after I have mended my broken bones  
You know that I will...  
Wait... half... empty... for you
