I crawled out of my window,
Stepped into the backyard.
It's not nuclear fission,
But it's still pretty hard.

Outer space has a way of making me want to believe.
But just think rationally
We are pretty much the same.

If someone steps into my room
They could mistake me for dead.
A triangular phenomenon
Hangs overall our heads.

Outer space has a way of making me want to believe.
But just think rationally.
Earth is pretty much the same.

(Oh yeah)
They got a plan
To put a cover on the sky and start all over again.
I think therefore I am
Paranoid (paranoid)

Can you see it in the sky?
I saw the ships of fire.
Can you see it in the sky?
Off the coast of Orion.
Can you see it in the sky?
I saw the ships of fire.
I don't know if
We can wait
This is a celebration
For the end or
The beginning.

In a way,
Outer space is making me want to believe.
But just think rationally,
You're still pretty much the same.

(Oh yeah)

They got a plan
To put a cover on the sky and start all over again.
I think therefore I am
Paranoid (paranoid).
