One shot in the revolution  
One drop from a poison pen  
One fruit too small and bitter  
One tree too proud to bend  
One man to start the trouble  
One kiss to seal your fate  
One kid that needs some action  
One link in a chain reaction

I got a fever, a fever in my soul  
No, I don't want to die before I get old  
It took some time just to bring me here  
Nobody's gonna put me down  
Do I make myself clear

One shot in the revolution  
One drop from a poison pen  
One fruit too small and bitter  
One tree too proud to bend  
One man to start the trouble  
One kiss to seal your fate  
One kid that needs some action  
One link in a chain reaction

I've got trouble, trouble in my life  
And I've been living on the edge of a knife  
But I don't intend to let you down  
I'm gonna give you love  
Before I hit the ground

One cruel and callous lover  
One blow below the belt  
One chance without another  
One heart too cool to melt  
One link in a chain reaction  
One link in a chain reaction

One shot in the revolution  
One drop from a poison pen  
One fruit too small and bitter  
One tree too proud to bend

One man to start the trouble  
One kiss to seal your fate  
One link in a chain reaction  
One link in a chain reaction  
(repeat)
