

Farnham John "Pressure Down"

Visit "[Pressure Down](#)" on MotoLyrics.com

Set the wheels in motion, and watch them turning
round
I want to sail across the ocean, I've grown weary of this
town
Take the pressure down
Cause I can feel it, It's rising like a storm
Take hold of the wheels and turn them around
Take the pressure down
In this city full of danger, we lead our seperate lives
And I was frightened by a stranger, with desperation in
her eyes
Take the pressure down
Cause I can feel it, it's rising like a storm
Take hold of the wheels and turn them around
Take the pressure down

Someone turned the pressure on
I called your name and you were gone
And I was trapped like a prisoner in this lonely town
I'm gonna let things slide, until the pressure comes
down
Oh the winner tells his story, the loser take the pain
Take the pressure down
Cause I can feel it, it's rising like a storm
Take hold of the wheels and turn them around
Take the pressure down
