When you look at me who do you see  
Do opposit distract you  
When we choose up sides where the roads divide  
Is it me you'll keep coming back to  
You place a cautious bet a little late night roulette  
It makes your heart beat faster  
But when the hour come - you will run  
Or decide that it's worth chasing after

You don't have to - unless you want to  
You don't need to - unless you need to  
Some do some do some do some don't

When you start alone and end up alone  
But between it's hours to play with  
Is it black or white - we're talkin' grey tonight  
Do you find the one you'll stay with

You try to rlease it but I'm not sure that  
There's any reason to - just let your heart decide

On your way back home will you walk alone  
Have you locked up the door behind you  
Or take me in and all that I am  
I'm here if you should decide to
