"Almost"

Almost you fell in love with me almost you were my
bride to be
But each promise that was made you have broken and
betrayed
And left me with a faded memory
Almost my precious dream came true almost you
whispered dear I do
But someone new came by and you left me here to cry
Oh how close we were almost
[guitar]
Almost I heard the church bells ring almost I heard the
choir sing
But I hear now instead all those unkind words you said I
remember every little thing
Almost your heart I did possess almost you brought me
happiness

But dreams just won't come true and there's nothing I
can do
Oh how close we were almost
