This Is the Part Where I Cry

Life is a picture and I play the lead
My biggest line was goodbye
My leading lady just walked out on me
And this, is the part where I cried
I was great in the scene where she found someone new
You should have seen my look of surprise
And if you have just walked into the picture
This, this is the part where I cry

And after the picture is over
And you're judged for the part where you lied
The award of achievement will be given
To me for the part where I cried
Cause I was great in the scene where she found
someone new
You should have seen my look of surprise
And if you have just walked into the picture
This is the part where I cry
