Did you ever feel unwanted
Kicked around so much you're taunted
Heart cried out from so much pain
Well that's the way I feel

I had someone and loved her dearly
Spoke sweet words, she didn't hear me,
Left me here heart-sick and lonely
That's The Way I Feel

To cry would do no good
I used to think it would
But the more I cried
The more I believed here's what I'll do
I'll let this feeling have it's day
Maybe it will go away
Maybe I will find another
That's the way I feel

I can't let heartbreak overcome me
Just because of the way she done me
I'll forget I ever loved her, that's the way I feel

To cry would do no good
I used to think it would
But the more I cried
The more I believed here's what I'll do
I'll let this feeling have it's day
Maybe it will go away
Maybe I will find another
That's the way I feel

I can't let heartbreak overcome me
Just because of the way she done me
I'll forget I ever loved her, that's the way I feel
I'll forget I ever loved her, that's the way I feel
Oh I hope I can forget her, that's the way I feel
