Well here I am
I'm standing by myself
On a pedestal
When I think I'm down
Dreaming of
A place to call my own

Well its been some time
Since we went back
Take it all away
What you did to me
Now I am
A shadow you have cast

Your trust is rust to me now
No wonder why, no how
It's just rust to me now
Your trust is rust to me now
No wonder why, no how
It's just rust to me now

Cause here I am
standing by myself
On a pedestal
When I think I'm down
Dreaming of
A place to call my own

Well its been some time
Since we'd advance
Take it all away
What you did to me

Now I am
a shadow you have cast

Your trust is rust to me now
No wonder why, no how
It's just rust to me now
Your trust is rust to me now
No wonder why, no how
It's just rust to me now

Before you jump
I think there's something you should know
Before you jump
I think there's something you should know

You say what you think
Need another drink
Tries to face himself
Just make this your wealth
What he said to me
Frightened, scared to be
Tries to face himself
Just like everybody else

He's just like everybody else
