Two purple shadows on the snow (ooh ooh)
Shown from her window to the street below
And I was so surprised, I stood there hypnotized
I never realized I loved her so

Two purple shadows on the snow
So close together, they were kissing I know
That date she had with me, she broke so easily
That it was plain to see I'd better go

What would you do in my place?
What would you do?
What would you do in my case
If it happened to you?

The wind blew the fire from my heart
Somehow, I found the courage to depart
And as I tore up two tickets for a show,
They turned to two purple shadows on the snow
Two purple shadows on the snow
(Two purple shadows on the snow)
