...And I realize that I need to be a strong and  
Independent young man  
But I realize that I'm nothing and I'd be nothing all  
Alone

This song is for everyone who's ever helped me out  
Hope I can repay you until that day comes this gesture  
is  
All I've got

The times the phone would ring and who could ask for  
Better timing?  
Something was bugging me and somebody helped to  
get it  
Off my mind  
Just want to let you know insert your name here, and  
this  
Song goes out to you  
Just want to let you know how that I hope you'll be my  
Friend  
Be my friend for life

This song is for everyone who's ever helped me out  
Hope I can repay you until that day comes this gesture  
is  
All I've got  
So thanks a lot
