

Farwell "Coming Home"

Visit "[Coming Home](#)" on MotoLyrics.com

Standing on the side of the road wishing the headlights
could take me home

To where you are beneath the sheets please wait for
me

I really miss you I'm far away tonight

So think of me one last time before you slowly shut
your eyes

Soon I'll be coming home to you

And have sweet dreams and a goodnight I hope that
everything's all right

Soon I'll be waking up to you

Staring at the stars in the sky thinking if maybe I could
fly

I could see you and not have to wait and I would say
I promise that I am on my way tonight

But I'm forever away, yeah I'm forever away
