First Verse:

She, she belongs to me
But she doesn't know it
She comes walking down the street
She don't notice me

Chorus:

And she comes round
She know how to turn me inside out
Inside out, upside down
She's got the bomb

I'm twisted metal tongue
When I get around you
I stutter incomplete
I can't keep a beat

Chorus

She comes round my door
She gets me everytime
She doesn't even notice me
When she goes walking by

Repeat First Verse

Chorus

Repeat Chorus
