(Guest Vocals: Gabby Alipe)

Gabby:

Let this cool night bring you in
I'll breathe in the warmth
Needed for a new beginning
A feeling of starting
You're my new religion

Gabby:

Fragile is your mended heart
That times sustains
Like paper planes
Only to be met by rain again
Fallin' in circles
You crash to the surface
My purpose, to catch you
With open arms

Henry:

Just you and I, I feel alright
You provided a sense of being right on time

One of these days, you'll be mine
You are the Queen in the Middle of the Night

Chorus:

Don't run from me tonight
Just hold me close, I won't fight
Don't run from me tonight
This is all I'm asking for

Henry:

This time I'll try to close my eyes
I decided that we would set the night on fire
One of these days you'll be mine
You are the Queen in the Middle of the Night

Don't you run from me tonight
(Don't run)
