

Faspitch "Namesake"

Visit "[Namesake](#)" on MotoLyrics.com

Something's slipping away
Can't get my progress on
Doesn't have to be so difficult

Remove the pain
Remove the pain

Just let me start out on my own again

Peel off my skin right now
The feel of my skin right now

She heard me say

Please don't forget,
Don't forget my name
Please don't forget me,

No don't you forget, no don't you forget

Peel off my skin right now
Don't you hesitate don't break this vow
Heal all my sins right now

She heard me say

Please don't forget,
Don't forget my name
Please don't forget me,
No don't you forget, no don't you forget
