Long before I ever saw your face  
I got to know you in a dream  
But things aren't always what they seem  
You learn along the way

I just can't stop myself from breaking down  
It's just no good unless you come around  
I turn into a monster  
All my friends agree

So goodnight  
I'm going to bed  
I'm falling upstairs to meet you  
I wake up with memories in my head  
I'm someone else instead  
Fallin' upstairs to you

You came to me from some secret place  
You're beautiful and strange to me  
Just like an antique melody  
Too sad for me to play

I hope you'll wait for me behind closed eyes  
I know I'll search for you all through the night  
'Till when the dawn breaks in and throws it's light  
Around the room

Goodnight  
I'm going to bed  
I'm falling upstairs to meet you  
I wake up with memories in my head  
I'm somewhere else instead  
Falling upstairs to you  
Falling upstairs to you
