VERSE

You can talk to me about powder kegs  
And how I'm sitting on one right now  
You can warn me about candles  
And whole things burning from the outside in  
But don't tell me about true love  
'Cause I don't think you really know

CHORUS

You need to pay the costs  
You need to feel the loss  
'Cause love is expensive and free  
Love is expensive and free

VERSE

Talk to me about appearances  
I tell ya' lately they mean less and less  
Do your best to keep me occupied  
It's hard to concentrate, I must confess  
Don't you tell me about heartbreak  
'Cause it ain't written in the stars

CHORUS

You need to pay the costs  
You need to feel the loss  
'Cause love is expensive and free  
Love is expensive and free  
Alright, you got me

VERSE

Don't you worry 'bout my baby  
Her eyes are open all the time  
I could never bare to see her  
Much less remove her from my mind  
I didn't talk to you about true love  
I didn't think you'd understand

CHORUS

You need to pay the costs  
You need to feel the loss  
'Cause love is expensive and free  
Love is expensive and free  
Love is expensive and free
