I think you oughta reconsider what you said
Talk to all the people living in your head
Everyday all of the time
Love is getting harder to find
You splashed down at the scene of the crime

You find it hard to keep a handle on yourself
Ain't you got enough prescriptions on your shelf
Everyday all of the time
Searching for your peace of mind
You splashed down at the scene of the crime

(La la la la la lo)
On which head ya feed the liar, the people, the drunk,
or the criminal
(La la la la la lo)
Yeah cause nobody cares when you're sober, a liar, but
socially responsible
Now the paparrazi circus has moved on
You're gonna have to find somebody to lean on
Everyday all of the time
Love is gettin' harder to find
All splashed down at the scene of the crime

(La la la la la lo)
On which head ya feed the liar, the people, the drunk,
or the criminal (Woohoo hoo)
(La la la la la lo)
See now nobody cares when you're sober, a liar, but
socially responsible
I think you need a long vacation in the sun
(Muchacha Muchacha Mucha Mu-Muchacha)
Get away from the noise and pollution
(Muchacha Muchacha Mucha Mu-Muchacha)
Everyday all of the time
Searching for your peace of mind
You splashed down at the scene of the crime
You splashed down at the scene of the crime
(oh)
