Tell her she look beautiful every day  
A woman needs to hear that, yes she do  
Let her know that she's special  
In the things that she do each day  
A woman needs to hear that, like that

Send her pretty flowers  
And a message so sweet  
A woman got to have that  
Like you still turn my head  
When you walk down the street  
Oh, a woman wants to hear that

Fellas, I'm here to tell you  
A woman's got to hear that  
To know that she's needed  
And if you want to keep her  
Make sure you keep her believin'  
Believin', believin', believin'

Here's what you gotta do  
Like call her from the office just to tell her hello  
A woman like to hear that  
Say I was thinkin' 'bout you, baby  
And I want you to know  
You know a woman like to hear that

Oh, you'd really be in trouble  
If I could fit through this phone  
A women likes to hear that  
'Cause I'd be comin', I'd be yupping in  
Jumpin' in your bone  
Oh, a woman likes to hear that

Oh, I'm here to tell you  
A woman's got to hear that  
To know that she's needed  
And if you want to keep her  
Make sure you keep her believin'  
Believin', believin', believin'

I know, I know it, oh I know

You might look at other women  
But that's just as far as it goes  
A woman likes to hear that

Tell her she's young than ever, everyone knows  
A woman likes to hear that  
But when you come home late for dinner  
Put some weak alibi  
A woman don't like that, no she don't

She'd worry that you're a book worm  
Even though it's a lie  
A women likes to hear that

Don't let her, don't let her, don't let her slip away  
To know that she's needed  
And if you want to keep her  
Make sure you keep her believin'  
Believin', believin', believin'

I know, I know my woman  
Your woman, my woman, his woman  
Her woman, everybody's woman  
Got to hear it

All you gotta do is tell that you appreciate  
The things that she does  
And you never, you never, you never  
You never lost that feelin'  
The first time you fell in love, mama

The woman's got to hear that  
To know that she's needed  
That's the way the story goes
