You're moving on and it's breaking my heart  
Is this the part where we say goodbye? (Goodbye)  
To the nights that we had  
The nights now wasted  
Filling our heads with our broken dreams?  
Our broken dreams like getting married  
In our bare feet  
Maybe it's just me  
But forever seemed  
Longer than this...

I hope every sad song that you'll ever sing  
Will constantly bring your mind back to me  
Come back to me when this started in spring  
I never saw this ending so  
Suddenly

You're breaking my heart

I hope every sad song that you'll ever sing  
Will constantly bring your mind back to me (Back to  
me)  
Come back to me when this started in spring  
I never saw this ending so  
Suddenly
