Niggaz replacin the 'G' in gangsta, with PR's and W's  
Pranksta wanksta-ass niggaz  
You know roses on caskets of those that oppose the  
squadus  
Fuck tri-borough, we reppin five borough  
Get at these niggaz straight music!

[Fat Joe]

Yo, Friday night, woke up in a cold sweat  
I can't believe niggaz schemin on Jo-seph  
Nah man, this ain't the way it's goin down  
Niggaz talk too much shit, and I jump like the sound  
They fear my presence like the rest of them  
Jose's the bettin informer, flesh-n-blood like the  
president  
Now maybe I'm a target on the pedastal  
Got a little fame now, niggaz wanna harm me for my  
revenues  
Start ya little beef, that's the shit I love to eat  
I been a soldier, you a son, be a humble seed  
My own niggaz let them hoes make 'em envy  
Posin like they friendly when I'm knowin they resent me  
That's the shit that get me aggravated  
It be the same niggaz in ya face talkin bout "I'm glad ya  
made it"  
Fake niggaz.. Jers' State niggaz..  
Funny how cake can make ya learn to hate niggaz  
You've now tuned in to the sounds of Jose  
Where we push sex, money, drugs, and violence all  
day  
Mostly heard in penals and project hallways  
And by niggaz blowin trees out the back of O.J.'s

[Hook]
