Do I question my loyalties?
Do I try to work it out?
Well, you're the part of the my memories,
That I never wanna live without,

So long I've been gone,
So many things have changed,
But I know where I belong,
And I know when I reach that place,

Ooh, I know when I reach that place,
Yeah yeah yeah yay...

I see the rain come down while the sun is shining,
I see them dance into the night (ahhh ahh ahh ahh)
See the rain come down when the sun is shining.

Stand at the base of your mountain high,
Dance into the night,

Skank be the rock in my life, x15
(Ohhh)
(I keep on telling you)

Fire!
Starts in my heart when I reach that place,
Home again where I belong,
Fire!

Starts in my heart when I reach that place,
Have I been away too long?

Have I been away too long?
