feat. Future

[Hook]

Without money and the fame and the women
Without luxury cars and the all the spending
Can you love me for me?
Can you love me for me?
Love me long time
Love me long time
Can you love me for me?
Can you love me for me?
Love me long time

Papi love you long time, girl
Smoking on Jamaican, thats that uptown girl
Gave you keys to that drop, hunned gs its a shot
Pearl harbor, to the harbor, diving off of them yachts
Body look like a stallion, girl
Hit the gym and coast fiending
Used to go with just window shop
Couldnt even go send it
Got too used to that winning
I got used to them used
Now you beef, stay at least
Never dreamed to this ending

[Hook]

Without money and the fame and the women
Without luxury cars and the all the spending
Can you love me for me?
Can you love me for me?
Love me long time
Love me long time
Can you love me for me?
Can you love me for me?
Love me long time

You said you love me long time girl
But now you say I call you at the wrong time, girl
Oh you acting different, what you out here slippin
Run the streets with these enemies and make me no

difference

Show me that catalogue, to hermans I cope that
They said it only come in hard top, I drop that
Mama said you dont love me, shit about to get ugly
Would you love me and fuck me, if I wasnt getting this
money
If I aint have that if I carried ear rings
Girl would you love me for me?
When that money get low you started trippin
Now you walking out the door and you flippin
Even my mama said you was a dont love me
From the beginning, cause I wasnt winning
I didnt listen

Can you love me for me?
Can you love me for me?
Love me long time
Love me long time
Can you love me for me?
Can you love me for me?
Love me long time
Love me all the time,
Love me all the time, if you love me

[Hook]

Without money and the fame and the women
Without luxury cars and the all the spending
Can you love me for me?
Can you love me for me?
Love me long time
Love me long time
Can you love me for me?
Can you love me for me?
Love me long time.
