One, one, one, one, one, one, one
One, one, one, one, one, one, one

Shawty I beat it any time you need me
To me you're the most beautiful girl, easy
Nothin' feels better then the love that you supplin'
Couldn't make a better ticket, that's me and weird
science

She love me even though I'm fat, I rance the track
My pants sag, you see my crack
Now that's Joey from da block, the only one I got
Sing on the more or less, you hold the number one spot

Even when I'm down you make me feel on top
It's like the car got the bow top, house got the yot
When I cheated you was loyal, stood by my side
That's why I went from three to one, like I made five

We all need one
We all need somebody to hold us down
We all need somebody to ride or die
We all, we all need

We all need one
Somebody that's gonna keep it real with you
Put up with your shit and deal with you
We all, we all need, we all need one
One, one, one, one, one, one, one

One, not two or three
Spend the rest of our lives, what's it gon' be?
I remember when you first moved in wit me
And your moms and your pops didn't even wanna see

I told you it'll be okay
Put my life on the line, on the grind, hit the streets all
day
You've seen that and the deeds with chase
Hoppin' over dem gates, I could see your face

More reason to get away the set nigga runnin'

Tucked my kids to sleep, tell 'em daddy's comin'
And I wanna get you outta dem jacks
Nothin' but the best baby girl and that's just outta
respect

We all need one
We all need somebody to hold us down
We all need somebody to ride or die
We all, we all need

We all need one
Somebody that's gonna keep it real with you
Put up with your shit and deal with you
We all, we all need, we all need one

Ain't no shawty like the one I got
Take the work from your crib, all damn the spot
I mean y'all holla when she walked in the block
But she only love me man, you ain't gotta shot

And there's nothin' like the love we share
Even when your gone baby girl it's like you're still right
here
One sun, one moon, you're my one boo
I could count on you, you always come through

We all need one
We all need somebody to hold us down
We all need somebody to ride or die
We all, we all need

We all need one
Somebody that's gonna keep it real with you
Put up with your shit and deal with you
We all, we all need, we all need one

One, everybody wish they got that ride or die
That one and only seein' them all less
You feel me? No paper, locked down
She gonna hold you down, yeah that's why we need
that one

We all need one
One, one, one, one, one
We all need one
One, one

We all need one
We all need one
We all need one
