I dont know,
If i can give you anything to make you feel right
I can but try,
Coz i cant stand the madness in my head
the whole night thru

Ive been thinking, ive been sinking
lost on mars got no paddle
not a supercatch, aint no model
hardly seems to count.
im just an ordinary voice
down didi didi down didi didi down, down didi...

I want you
and everthing you say just makes me
want you
and everysingle day and i just
want you
in every single way and i just
want you
and im just lost

want you
want you
want you
want you
and im just lost

I dont know,
If i can give you anything to make you feel right
I can but try,
Coz i cant stand the madness in my head
the whole night thru
