La, la, la, la, la, la, la, la  
This is the sound when we ride on our enemies

I thought I told you stay back, you ain't listen the first  
time  
He's the one that I spit in my first rhyme  
Now, I'm knockin' at your door  
With the pistols little bitch niggaz you ain't ready for  
war, my enemies

He's runnin' scared screamin, "Crack's back"  
So my nigga take that, niggaz tryin' to hate Crack  
I'm bringin' '88 back, we stay strapped comin' for  
cowards  
Fuck the 9's, man we comin' with choppers

Like brat-dat-dit-at that's the sound of them guns  
When we come and you run  
'Cause you scared and you fear everything you heard  
about about us  
We murder cowards, I know you heard about my words  
Now, niggaz bow down

La, la, la, la, la, la, la, la  
La, la, la, la, la, la, la, la  
This is the sound when we ride on our enemies

One time for my nigga Cool, two time for my nigga Dre  
The whole M I A, I don't know what you tryin' to portray

But you don't want to see them send my spray  
Goin' against our way, stop, admit it

God forbid it, the way these choppers spit it  
You drop in minutes and I don't know how you dare  
Nigga stop actin' like a bitch you scared  
Niggaz, listen here and we ain't finished 'til your  
mamma's in the church

Screamin, "Why they took my son up on off this earth?"  
I know it hurts and this is the sound when we ride  
Niggaz die when our crews collide  
My enemies

La, la, la, la, la, la, la, la  
La, la, la, la, la, la, la, la  
La, la, la, la, la, la, la, la

La, la, la, la, la, la, la, la  
La, la, la, la, la, la, la, la
