Yesterday I felt so down but now I'm coming around  
Felt like throwing in the towel but now I'm coming  
around  
Bumped in to my drug dealer and now I'm coming  
around  
Yesterday I felt so down but now I'm coming around

Sometimes I just need my baby to keep me on the level  
Sometimes I just lose my faith won't you stay with me  
forever  
I had a feeling that I couldn't shake but you blew it off  
the radar  
I'll be holding on to you

Yesterday I felt so down but now I'm coming around  
Felt like throwing in the towel but now I'm coming  
around

Sometimes I just need my baby to keep me on the level  
Sometimes I just lose my faith won't you stay with me  
forever  
I had a feeling that I couldn't shake but you blew it off  
the radar  
I'll be holding on to you

Yesterday I felt so down but now I'm coming around  
Felt like throwing in the towel but now I'm coming  
around  
Bumped in to my drug dealer and now I'm coming  
around  
Yesterday I felt so down but now I'm coming around

Sometimes I just need my baby to keep me on the level  
Sometimes I just lose my faith won't you stay with me
