"Long Way From Home"

Visit "[Long Way From Home](#)" on MotoLyrics.com

To tired to walk it was a long way from home,
The moon froze the night
To tired to walk it was a long way from home,
The moon froze the night

Switch the channel on my TV,
And the cameras are fixed on me again,
I'm running and I'm running and I can't seem to hide,
The skies so red that I'm losing my mind
I can't get my head to stop this feeling inside
The four walls are coming and I can't get outside

The four walls have come taking all that's mind
There stealing my toys leave no memories behind
Everything's changing nothing seems the same,
They? my thoughts not cars or trains
The thoughts were bought but kept me sane
Everything's changing nothing seems the same,

To tired to walk it was a long way from home,
The moon froze the night
To tired to walk it was a long way from home,
The moon froze the night

Stare out my window, I'm yearning for more
Bust for my borrowers and settle the score
I want my toys but the man out there's too hard
Running around, feet on the ground
Can't seem to understand this game they're playing
And no one seems to want to sit with me.

To tired to walk it was a long way from home,
The moon froze the night
To tired to walk it was a long way from home,
The moon froze the night

To tired to walk it was a long way from home,
The moon froze the night
To tired to walk it was a long way from home,
The moon froze the night

To tired to walk it was a long way from home,

The moon froze the night
To tired to walk it was a long way from home,
The moon froze the night
