I know some people they ain't got no money
But they do got a means to an end,
cuz they got juice and they got plenty of lovin'
and a big heap of beautiful friends.
I know some people didn't know that they're born,
They don't know the soles of their feet.
Well you can't fight a war when you got lovin' in store
there on the sunny side of the street.
Let's do the whip
Everybody get hip to it

Ain't nothin' missin' we got a pot to kiss in
We got karma, we am what we am.
It's up to you because the best that you can do
is the best that you can.
My situation is the fellation nation,
dancing to the brotherly beat,
Well you can't fight a war when you got lovin' in store
there on the sunny side of the street
