where's your head at, (echo)  
where's your head at,  
where's your head at,

where's your head at, (echo)  
where's your head at,  
where's your head at,

drop it

OK are you ready?  
I'm ready!

where's your head at (echo)  
where's your head at,  
where's your head at,

where's your head at (echo)  
where's your head at,  
where's your head at,

don't let the walls cave in on you,  
we can't live on, live on withoutchu,  
don't let the walls cave in on you,  
we can't live on, live on withoutchu,  
don't let the walls cave in on you,  
you get whatchu get that much is true,  
don't let the walls cave in on you,  
do turn the world away from you,

where's your head at (echo)  
where's your head at,  
where's your head at,

where's your head at (echo)  
where's your head at,  
where's your head at,  
(where's it at?)

are you ready?  
i'm ready! go! (echo)

you have now found yourself,  
trapped in the incomprehensible maze,  
ya'll know how to feel,

where's your head at,  
where's your head at,

You man go easy on yourself,

where's your head at,

whatchu get, is watchu get (echo)

where's your head at (echo)  
where's your head at,  
where's your head at,

where's your head at (echo)  
where's your head at,  
where's your head at,

don't let the walls cave in on you  
we can't live on live on withoutchu,  
don't let the walls cave in on you,  
we can't live on live on withoutchu,

don't let the walls cave in on you,  
we can't live on
