Yeh, yeh yeh yeh
Uhm hmm hm hm

It's a wonderful night
You've gotta take it from me
It's a wonderful night

Come on and break it on down

It's a wonderful night
You've gotta shake it for me
It's a wonderful night

Come on and break it on down

It's a wonderful night
Everybody can see
It's a wonderful night

Come on and break it on down

It's a wonderful night
Go ahead and release
It's a wonderful night

Come on and break it on down

You know the music search engine need a tune-up
Soon as they out the gate they all a wanna hit da
corner, uh-huh
Well that was cool but now but then I heard a rumor, uh-
huh
Your crew was ridin' for the White Cliffs of Dover, uh-
huh

Oh let me tell ya how we do it in California
We'll have you on the run just like a Puma
If it don't move us
Ain't paid ya dues and it ain't gonna get our groove on
so
We gonna lose ya to the consumer solution c'mon

It's a wonderful night
You've gotta take it from me
It's a wonderful night

Come on and break it on down

It's a wonderful night
You've gotta shake it for me
It's a wonderful night

Come on and break it on down

Girl I want it you got it
Your body's like a narcotic
The thought is auto-erotic

Can I get it on credit
I guess your brickhouse I'll bet it
Take it as far as you'll let it

Come on and break it on down

That the spot will get hot
That it's ready to pop
Don't even look at the clock
All of your problems forgotten
It's time to rock till you drop
Feel the force and just flock
To the epicenter of the party's bass tremors c'mon

It's a wonderful night
You've gotta take it from me
It's a wonderful night

Come on and break it on down

It's a wonderful night
You've gotta shake it for me
It's a wonderful night

Come on and break it on down

We gonna stimulate your mind
Everybody's high
Eyes just like a child
Everything feels right

Once you've seen the light
You're gonna move all night
Feel your soul ignite
Everything feels right, right, righhhhhhhht

We live the masterful life that's mythical
Feel it's chords and it's vibes a-typical
Do what you want
It's alright this mystical time you've got
That's allotted is plentiful

If you stay in this moment so critical
Let the music change your brain stem's chemicals
Make you feel like your spirit's invincible
Force centrifugal reaching up to your pinnacle now

It's a wonderful night
You've gotta take it from me
It's a wonderful night

Come on and break it on down

It's a wonderful night
You've gotta shake it for me
It's a wonderful night

Come on and break it on down

We rock like Colorado
You're at it throwin' bottles
We give a fuck about your status
Who you are tomorrow
Whether you beg or borrow
Or hit the super lotto
Whether your girl look like a minger or a supermodel

Feel the connectedness, energy, disprojected the
weighted
The whole collective consciousness
Arise like helium up
Groovin' out of the question
Won't disrespect him, but
Our styles fuckin' Posh, like Dave Beckham c'mon

It's a wonderful night
You've gotta take it from me
It's a wonderful night

Come on and break it on down

It's a wonderful night
You've gotta shake it for me
It's a wonderful night

Come on and break it on down

The truth I'm at 'em and rough 'em
As hard as the granite get
Never hesitant upon a mic, strike quick
Like an avalanche
Hijack ya like a Comanche
I'm a man on a mission
Rhyme vigilante
Keep all the jealous and the envious antsy
Love to do the club, go with the party people dancin'
uh-huh
And set the mood for all the plottin' and romancin' uh-
huh
It's a wonderful night
We've got the answer c'mon

It's a wonderful night
You've gotta take it from me
It's a wonderful night
Come on and break it on down

It's a wonderful night
You've gotta shake it for me
It's a wonderful night

Come on and break it on down
