So you learn real hard, babe in the woods
Fight for your keep cause
Deep in the dark wolves rip at your heart
As you lie asleep

Endangered specie of the megahertz
Follow the yellow brick road
Your asylum awaits you
Sign on the dotted line

Pirates of the underground, mutiny is in the air
You're the wind in the sails mother ship
Drifters at sea remain to be
Till land which speaks our tongue is found

On our way cut the tongues of dragons breathing fire
Ride the waves through the air down below the mire

Preacher man spins backward secret messages
What are you looking for?
Something your sub conscience can devise

Such a sin to disappoint
Your suspicion
Your force is ours
You know there are no hidden lies

Tuned out in neutral vegetation
Prime time bleeding hearts howl at the moon
Foul temptress, oh she sings seduction, yeah
As vultures feast forbidden fruit

Live an abstract life in your hibernation
A rude awakening
For the underdog typhoon
Set the themes on fire

Climb aboard this man of war
She'll take you far away
To a land of fantasy
In your imagination
