Hey girl don't you get it
Some guys are so better than him
You can always play the field
My friends they all go steady
But my folks say I'm not ready for that
But I plan to make a deal

CHORUS:

It's all about girl talk
Is so much better than guy talk
The real thing isn't what you thought
You never know what they'll say
Girl talk you've been quiet long enough
Stand tall your freedom is here to stay
Take it or leave it babe

Right now the things I'm doing
Seem like I'm just fooling around
Like I just don't give a damn
I'm young and I'm still growing
So much is still ahead of me now
And frankly none of you understand

CHORUS

Parlez-vous la feminista por favor
Telling secrets in a language all their own

Bright eyes go right through me
My heart skips a beat and a half
I'm gonna run and tell all the girls

CHORUS
