"Magic Isles"

Visit "[Magic Isles](#)" on MotoLyrics.com

To spend one night on the magic isles
Just one night, just to see you smile
Where the moon is always shining bright
Bringing love to the isles every night

Pretty music you can hear on the isles every night
Lovers walking and talking until the broad daylight
The magic isles is the place to be
With you, my darling, until eternity

Pretty music you can hear on the isles every night
Lovers walking and talking until the broad daylight
To spend one night on the magic isles
Just one night, just to see you smile
