"So Swell When You're Well"

Visit "[So Swell When You're Well](#)" on MotoLyrics.com

You know I love you baby from A to Z
But sometimes you keep a worryin' me
Sometimes U love me and sometimes U don't
Sometimes you will and sometimes you won't

You're so swell, baby when you're well (3X)
But you just stay sick so long

Keep on connivin' and you're jivin', too
True love ain't never gonna smile on you
You'll pace the floor, honey, sit and cry
Put out your hand then you'll wonder why

You build me up, then you let me down

First you have a smile and then you frown
Well if you love me like you say you do
How could U love me and be untrue?

Fool that I am not to put you down
First you have a smile and then you frown
Well if you love me like you say you do
How could you love me after you've been through?

You're so swell, baby when you're well (3X)
But you just can't stay that way
