When I'm walkin' let me walk
And when I'm talkin' let me talk
'Cause I been lonely long enough
And it's time for me to strut my stuff
And when I'm sleepin' let me sleep
And when I'm creepin' let me creep
'Cause I been lonely long enough
And it's time for me to strut my stuff
So come on, walk with me
Come on and talk with me
And when the band starts swingin'
Let them swing
And when I'm singin' let me sing
'Cause I been lonely long enough
And it's time for me to strut my stuff

'Cause I been lonely long enough
And it's time for me to strut my stuff
So come on and walk with me
Come on and and talk with me
And when the band starts swingin'
Let them swing
And when I'm singin' let me sing
'Cause I been lonely long enough
And it's time for me to strut my stuff
When I'm singin' let me sing
when I'm playin' let me play
