Lotta people won't get to sleep tonight  
Lotta people won't get to eat tonight

If we sift through the topsoil  
We'll make it better and better and  
If we sift through the topsoil

How do I live  
Before I exist  
In this madman's day by day?

With television walls to tuck me in  
Television walls to tuck me in

While outside screams of poverty!

You feel time tickin' away  
Did you spend your better days in a comfortable haze?

Waste time tickin' away  
Do we deserve the very best things like dinner plates?
