Don't delay
Act now so you won't
Be suprised
When all your life you've spent
Searching for another way
And it's too late
To go back now

Let's start a brand new day
This is my heart beating strong,
Hardly holding on
I've said it once and I'll say it again
How else was this supposed to end?
You can't avoid disaster, you can only bring it faster
And it's a shame

This is just another verse
And it can't help me to reach you
To teach you
Now it's time
To focus on the many different ways to spend your life
Searching for other times
And other places

Everywhere you look is your regret
It's too late now for a second chance
You stumble falling down to the ground
You'll have to live with that for now
