Whipping boy  
Heavy with fake plastic dreams  
Sell all your stuff  
And lets head for the sea

Or head for the ocean  
It's just fine with me  
One, two, what have we come to my friend

And how did you fall  
And who did you run to  
Did you even run at all

Don't look ahead man  
That's easily said  
Turn off the light  
And look under your bed  
And when I come knocking  
Don't open the door  
One, two, what have you come to my friend

And how did you fall  
And who did you run to  
Did you even run at all

Was it too simple or were you absurd  
Was I dramatic or vastly unheard  
I can't sleep, can't get up  
I'm no longer sure  
Of me or you or what we have come to my friend

And how did we fall  
And who did we fall  
And who did we run to  
Did we even run at all
